## EXPERIENCE

### Lead React Native Developer & React.js Collaborator

#### Octaloop Technologies

06/2022 Islamabad

- Initially joined as a React Native Developer and was later promoted to Lead React Native Developer. Led the development and deployment of mobile applications, showcasing strong project management and technical leadership.
- Collaborated with the web development team on React.js projects, contributing to enhanced features and improved responsiveness that significantly boosted user experience across multiple web platforms.

### React Native Developer

#### Maniwebify

02/2022 - 05/2022 Rawalpindi

- Developed and optimized user-friendly React Native applications, significantly enhancing user interface design and functionality. Applied best practices in UX/UI to ensure optimal accessibility and engagement, leading to improved user satisfaction and increased app usage rates.
- Collaborated closely with senior developers to integrate cutting-edge features and technologies into existing applications. Played a key role in architectural decisions and the implementation of advanced functionality that ensured robust app performance and scalability under peak traffic conditions.

## EDUCATION

### Bachelor of Science in Computer Science

#### Iqra University Islamabad

09/2017 - 09/2021 Islamabad

## LANGUAGES

Urdu  
Native

English  
Fluent

## PROJECTS

### Drive Streak

2023 Islamabad

Developed an NFT-based mobile application utilizing React Native, Google Maps, and Web3 technologies to allow users to earn tokens by traveling distances. Enabled transactions for buying and selling NFTs, enhancing digital economic engagement.

- Successfully developed and launched a fully functional mobile application.

## SUMMARY

Accomplished mobile app developer with nearly 3 years of experience in React Native, specializing in creating superior cross-platform applications. Skilled in React, I've extended my expertise to include the MERN stack, enhancing my capabilities in both frontend and backend development. My technical progression allows me to deliver comprehensive full-stack solutions that integrate seamless functionality with engaging aesthetics. Dedicated to turning innovative ideas into elegantly designed, high-performance applications and websites.

# PROJECTS

---

## Scorpion Yacht

📅 2023 📍 Islamabad

Engineered a mobile application for yacht booking in Miami using React Native and Firebase, streamlining the reservation process and enhancing user data management. Integrated real-time availability updates and secure payment processing to ensure a seamless and reliable booking experience.

- Successfully developed and launched a fully functional mobile application.

---

## Nexgen AI

📅 2024 📍 Islamabad

Created an AI-enhanced mobile keyboard using React Native with native modules, focusing on predictive text and efficiency improvements. Prepared for Q3 release, this app aims to significantly enhance typing experience across mobile platforms.

- Successfully developed and launched a fully functional mobile application.

---

## Supervet

📅 2022 📍 Islamabad

Developed a React Native mobile application, 'Supervet Comics,' designed to provide detailed character information from the 'Supervet' game. This app enhances user engagement and deepens the gaming experience by allowing players to explore character backstories and traits.

- Successfully developed and launched a fully functional mobile application.

---

## 001 Car

📅 2023 📍 Islamabad

Launched a comprehensive car rental and sales mobile platform using React Native, incorporating features like payment integration and advanced booking systems. Designed to simplify the process of car transactions, improving user convenience and operational efficiency.

- Successfully developed and launched a fully functional mobile application.

---

## Metanexes

📅 2023 📍 Islamabad

Developed the Metanexes website using React, optimized for Oculus devices to enhance immersive interaction and accessibility for users.

- Currently in development phase.

---

## Toy Cove

📅 2023 📍 Islamabad

Toy Cove is a website I developed for purchasing children's toys, designed to provide a user-friendly and engaging shopping experience. Toy Cove is a website I developed for purchasing children's toys, designed to provide a user-friendly and engaging shopping experience.

- Successfully developed and launched a fully functional web application.
